DETAILED ACTION

Allowable Subject Matter

Claims 2,8-11,13,19-22,25,27-30 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art is silent in teaching generating a sequence by computing a multi-dimensional vector of parameters indicative of a characteristic of an initial frame, creating a bounding subset comprising at least three of the frames in the sequence found to maximize the distances between all of the frames and further adding to the segment further frames in the sequence while determining the distances between the added frames and the representative frame are within a predefined bound in combination with the other claimed limitations . This approach is advantageous in permitting a large number of frames to be grouped efficiently and reliably so that they can be represented by the same representative frame.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ryan F. Pitaro whose telephone number is 571-272-
